DETAIL E
SCALE 1 : 1

SECTION D-D
SCALE 1 : 1

We need to check from the Cabin typing list whether the cabin type has a right handed cabin or not. If there is not, the identification table doesn't need the right handed cabin row.

There is no right handed cabin of this Compact+ (1) B cabin type.

Make sure that the identification table is accurately filled. Cabin type and Almaco Code can be found from cabin typing list.

SECTION G-G

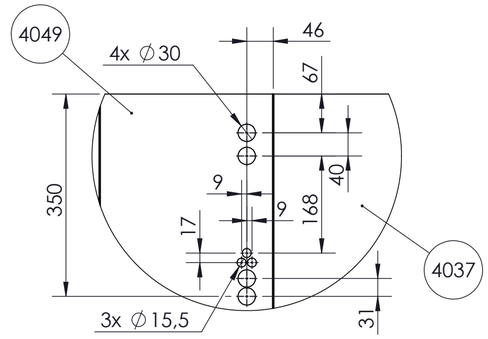

SCALE 1 : 2

Change this to a rectangular profile, Looks cleaner

938mm needs to be updated to the groove joint filling length, which is 926mm in this case.

These two arrows are too close. If we can, we should make the drawing clear for a brief scan.
